### **NutraGlobin Liquid tonic**

**Read all of this leaflet carefully before you start using this medicine.**

- Keep this leaflet. You may need to read it again.
- If you have any further questions, ask your health care provider.
- This medicine has been prescribed for you. Do not pass it on to others. It may harm them, even if their symptoms are the same as yours.
- If any of the side effects becomes serious, or if you notice any side effects not listed in this leaflet, please tell your health care provider.

### **In this leaflet:**

1. What NutraGlobin is and what it is used for
2. Before you use NutraGlobin
3. How to use NutraGlobin
4. Possible side effects
5. How to store NutraGlobin
6. Contents of the pack and other information

### **1. WHAT NutraGlobin IS AND WHAT IT IS USED FOR**

This product is a multivitamin, including in its formula; Iron, B vitamins, Vitamin C, Zinc and other minerals, in addition to Lysine. This Product is used to correct or prevent iron or vitamin deficiency due to poor diet, certain illnesses, or during pregnancy. Vitamins are important building blocks of the body and help keep you in good health.

### **2. BEFORE YOU USE NutraGlobin**

#### **Do not use NutraGlobin**

- if you are allergic (hypersensitive) to any of the other ingredients of the product. Food supplements must not replace a varied and balanced diet and a healthy lifestyle. As with other food supplements, consult your doctor or pharmacist before using if you are under medical supervision, pregnant, breast-feeding, have epilepsy, a thyroid disorder, haemochromatosis, or suffer from food allergies.

### **3. HOW TO USE NutraGlobin**

Always take NutraGlobin exactly as your health care provider has told you. You should check with your health care provider if you are not sure. The dose is according to age and it is mentioned on the package and below.

#### **DIRECTIONS :**

Children (3-6 years): 2.5 ml twice daily.

Children (7-12 years): 5 ml 1-2 times daily.

Adults and Children aged 12 and above: 5 ml twice daily.

Shake well before use. Do not exceed the recommended intake. NutraGlobin can be continued for as long as required.

### **4. POSSIBLE SIDE EFFECTS**

Like all medicines, NutraGlobin can cause side effects, although not everybody gets them. Some darkening of urine color may happen due to the presence of riboflavin in the preparation. Occasionally nausea or epigastric discomfort happens, especially when taken on an empty stomach. If any of the side effects gets serious, or if you notice any side effects not listed in this leaflet, please tell your health care provider.

### **5. HOW TO STORE NutraGlobin**

Keep in a cool and dry place at a temperature below 25°C.

Keep out of reach of children.

Do not use NutraGlobin after the expiry date that is printed on the carton label.

### **6. Contents of the pack and other information**

200 ml bottle with a measuring cup and an enclosed leaflet in a carton box.
